00:00:00 - Angela Brunson
Hi, are you doing? I'm well, how are you?
00:00:02 - Craig Muirhead (nsnconstructionnw@gmail.com)
Yeah, good, thank you. Good, good, good. I just flew back in, so I'm back in Mallorca.
00:00:10 - Angela Brunson
Oh, how was the flight?
00:00:12 - Craig Muirhead (nsnconstructionnw@gmail.com)
Yeah, all good, all good. Nice and quiet this time of year.
00:00:15 - Angela Brunson
Good.
00:00:16 - Craig Muirhead (nsnconstructionnw@gmail.com)
Yeah, so it's all good. So how are you feeling since the last time we spoke?
00:00:20 - Angela Brunson
Really positive about it.
00:00:22 - Craig Muirhead (nsnconstructionnw@gmail.com)
Sorry, I missed that.
00:00:23 - Angela Brunson
Very positive.
00:00:25 - Craig Muirhead (nsnconstructionnw@gmail.com)
Very good.
00:00:25 - Angela Brunson
Like, just definitely everything's seems like it's a good fit and at the right time.
00:00:33 - Craig Muirhead (nsnconstructionnw@gmail.com)
Okay, that's, that's, that's good to hear.
00:00:35 - Angela Brunson
How are you getting on with building the bikes? Well, I've gotten to the garage and I'm still sipping my coffee. That's as far as it's gotten, but the, I'm also in the garage with the door open waiting for the FedEx man to show up with my exhaust.
00:00:54 - Craig Muirhead (nsnconstructionnw@gmail.com)
Okay. Yeah. Yeah.
00:00:55 - Angela Brunson
So that's, you know, one of those, we tried to deliver it yesterday. you Yeah, will see David, we need a signature, so.
00:01:02 - Craig Muirhead (nsnconstructionnw@gmail.com)
Yeah, usual logistics issues. Yeah. Well, I had a look back through our notes, you know, which was good to have so much insight. So if I just recap on what I think I was hearing, one of the things you said that you were fighting dread, accepting that you were being beaten down and a lack of confidence and having little or no expectation of progress. And, you know, that's the sort of situation, if you like. And you've tried a myriad of solutions over the years. Rider coaches, the one that gave you instant radio feedback was probably the most effective for you. Superbike school, but you're still unable to find the right path to be consistently able to be in the right space. to be able to perform. And obviously, that's frustrating. You know, it leads to a downward spiral, like we said, where you're, you know, feeling that you've got to try harder to try and, you know, force a result. And when you don't see progress, it's Groundhog Day, really. And, you know, you're sort of like, okay, damage limitation, let's not get to expecting anything and just bring it home sort of thing, you know?
00:02:28 - Angela Brunson
Yes, Which obviously is not very fulfilling. Right on the nose.

00:02:33 - Craig Muirhead (nsnconstructionnw@gmail.com)
Yeah. Okay. Yeah. You've already tried to work on the physical aspects, all of the external factors, understand the entire patch, grip levels and everything else, but you still realize that there's still a missing piece. There's, there's a missing piece to what your knowledge is compared to what you need to be able
00:03:04 - Angela Brunson
Yes, and that last set of two factors, my knowledge versus what I'm able to do, I think even fuels the downward spiral of, I've been doing this longer, I've spent more on coaches, and I've had more experience, and I am yet still not. And also you combine that with those people that are newer, and they're on that rise up of making progress and in leaps and bounds. And it just, it all works in and like to fuel a negative fire in me.
00:03:35 - Craig Muirhead (nsnconstructionnw@gmail.com)
Yeah, yeah, sort of, yeah, leads you to the same place each time.
00:03:38 - Angela Brunson
Yeah. Yeah, like it was, I didn't know, you know, knowing what how much I do know, and yet here I am, it's maddening.
00:03:46 - Craig Muirhead (nsnconstructionnw@gmail.com)
And even more puzzle solution mode, know, even more thinking, how can this be the results?
00:03:54 - Angela Brunson
Yeah, defies logic. How can I know this much and have this much experience and have ridden these? These different bikes, yeah, and still lackluster, you know, not breaking through. Like for these little bikes, getting under the two-minute mark at Chuckwalla is sort of, you know, I used to seriously have it as a goal and aim my sights at it. And now I'm just sort of like, if I'm under 210, I'm thrilled. But the fastest I've ever gone, that moment of just watching my boyfriend's tire and knowing he's heavier, it's a 300, I'm 400. Lighter person, same tires, you know, trust in what he's doing, because he's very good at this, and no more, no less. Anyway, I got to a 202.
00:04:41 - Craig Muirhead (nsnconstructionnw@gmail.com)
Okay, yeah, yeah.
00:04:42 - Angela Brunson
A low 202, for what it's, you know.
00:04:45 - Craig Muirhead (nsnconstructionnw@gmail.com)
From quieting things down, yeah, yeah.
00:04:48 - Angela Brunson
Yeah.
00:04:50 - Craig Muirhead (nsnconstructionnw@gmail.com)
Yeah, exactly.
00:04:51 - Angela Brunson
I was telling myself that it was just a new message in my mind, which was nothing more, nothing less. It's just... Just do that. Just do that. And, and forget about the entry apex breaking point references. Like, like, I remember thinking, I don't even know where I am right now on the track. And that was so foreign to me. And then I heard the next voice say, but you're fine. Right? Just do that. And, um, yeah, I'm pretty sure that's like, I think if I'm guessing accurately that this is what this program, this training might help me to be able to get to and not just because of those circumstances and the planets lined up in that way, like me being able to get there and not having to have a tire in front of me being there. Like, I think that's inspiring to me. If I can feel that level of I'm okay, I'm safe. I don't need to be criticizing myself. You know, I don't necessarily even need to know where I am on the track or what my. And I think I've even called it sometimes like, I just went into zombie mode and then I snapped out of it and remembered I'm racing, you

know, get back into thinking about stuff because this is serious and you need to, you know, execute the apex and the entry and your lines and, and like that zombie mode that's That autopilot, you know, the moments that it's happened without the boyfriend and the tire and the safety of, you know, the predictability of that situation, right? When it's happened where I've just zoned out, I think it's a scary place for me.
00:06:44 - Craig Muirhead (nsnconstructionnw@gmail.com)
Well, you will surrender because when you're riding at your best, it isn't actually you doing it. You're facilitating yourself to go at a 159. mean, let's use Chukwa. A 159, okay? If you do a 159, come in, and everyone goes, wow, what do you do in that lap? You'll have no clue. You'll say it just felt good.
00:07:12 - Angela Brunson
Yes, and I always criticize my boyfriend when I'm like, hey, so what gear were you in? You know, when you rode my bike, and you did a 204, and where were you at? I don't know. Well, how did you do that? I don't know. Well, what should I do? He says, babe, you just need to go faster. And I'm like, I want to wring your neck right now. You are the worst coach ever. You're not helpful. I feel like you're being mean and just saying it to spite me, but he's not. I know he's not. Like, he's at that place.
00:07:46 - Craig Muirhead (nsnconstructionnw@gmail.com)
Yeah, he's in a he's in a different part of the processing, you know, part of the brain kind of stuff. Yeah, where he yeah, he's running subconsciously. So he isn't capable of remembering. It's not memories actually got nowhere. When he. You're going to it. And so what you're doing is you're trying to remember what to do. So you're almost stopping yourself from going to that space by going, oh, no, I've got to remember technique.
00:08:11 - Angela Brunson
I've got to remember what gear I should be in.
00:08:14 - Craig Muirhead (nsnconstructionnw@gmail.com)
Whereas when you relax and when you relax, a lot of rider coaches don't like the word relax. It's like, hey, I don't really care where I come. But actually, the way I see relax, there's a word, is focus without stress. So we're not stressed out by what we're trying to do, but we're immersed in the task. And what you did in those times when you were just chasing and he became the goal. So there was no other goal about I've got to be perfect on my own tree and I've got to hit every apex. He became the goal. I'm just going to keep this gap. And you got immersed in that activity. And when you're immersed in that activity, everything else fades away. You're then just dealing with what you're dealing with and your performance. So you've got there by accident. We'll get you there by design more consistently and more often.
00:09:06 - Angela Brunson
Yes. Yeah. And the more I thought about that, I, I, I embrace that opportunity to figure out how to do that and do whatever it takes to get there, because I know that's key. I can do it. I've done it before. It's just been, you know, under either a matter of luck or, you know, that one moment of like having that. faith and that trust. And, um, yeah, yeah.
00:09:33 - Craig Muirhead (nsnconstructionnw@gmail.com)
And it's a combination of everything adding up. So it's not just one thing. If it's one thing, everyone's like, just give me the secret sauce, you know, and I'm ready, but it's actually a combination of everything adding up together, which is why it's a checklist. It's a, it's a, it's literally a tick, tick, tick, done it all.
00:09:50 - Angela Brunson
Now I'm ready to be in that space. Yeah.
00:09:53 - Craig Muirhead (nsnconstructionnw@gmail.com)

You know, the problem that your boyfriend's got and other people have got is they don't know how to replicate it.
00:10:00 - Angela Brunson
Yeah, they're good at doing it, and they can't, he just can't communicate it, you know?
00:10:06 - Craig Muirhead (nsnconstructionnw@gmail.com)
Yeah, exactly, exactly. So a couple of questions that I did have is, I know you've been coached an awful lot, but how coachable do you think you are?
00:10:16 - Angela Brunson
Oh, I think I'm really good at, like when you said it's tick, tick, tick, like I tick, you know, I can, I'm not here to say no, that I don't, you know, I buy this from you, I buy this from you. But this part, no, like I'm, give it to me, I'm a sponge, and I've had hockey coaches and rock climbing coaches, and they've all said, you know, I never thought I would like coaching a girl, but they've all found that girls actually end up being more coachable because we listen. Like, for instance, in rock climbing, and I've coached, you'll tell a guy like, hey, look for where you want to put your right foot, and their feet are just dangling off the wall, and they're like, I've got this. Thanks. They think they can muscle their way up, and if you just look where to put your foot, this would be a lot easier, you know, whereas girls are like, oh yeah, that makes sense, I will do that.
00:11:11 - Craig Muirhead (nsnconstructionnw@gmail.com)
Yeah, exactly. And what we really want is a good copy and paster, because it literally is just, I don't expect anybody to do anything that they don't understand and they don't have the neuroscience behind it. So a lot of people in the paddock will tell you what's wrong, but they'll never tell you what to do about it. They'll say, you're riding tight, or you're over pushing or whatever, but they never tell you what to do in place of it. So we highlight an issue that you may have experienced now, or maybe you haven't even experienced that yet, where it's coming from, what's behind it in the science, and then a solution to that situation. So it's literally a copy and paste rather than something that's going, like you just said before. you. Or, you know, for me, that really doesn't apply to my race weekends, and I do it my way. We still end up getting there eventually, but it just takes us a lot longer, because they've stuck to their ways for a while. And then they've sort of realized, and it's like a super tank, you've got to slow it down, turn it around and bring it back again, you know, so it's really just that copy and paste. And as we said before, just being in that daily habit, that daily habit of doing a little bit each day, that's really the way for it to To run through. And do you think that's you?
00:12:34 - Angela Brunson
Yeah. Yeah.
00:12:35 - Craig Muirhead (nsnconstructionnw@gmail.com)
Yeah. Okay. Okay, great.
00:12:40 - Angela Brunson
And so it sounds like, oh, sure, I can commit, you know, 30 minutes a day, or like, like, there are days where I get up and I say, I'm going to work out at five o'clock, I'm off the clock, I'm going to walk down the hall and go to my gym workout.
00:12:50 - Craig Muirhead (nsnconstructionnw@gmail.com)
And sometimes things come up where like, I'm still working at 7pm.
00:12:54 - Angela Brunson
But like, really, when it comes down to it, if it matters to you. And. So.
00:13:01 - Craig Muirhead (nsnconstructionnw@gmail.com)
And as soon as you start seeing progress, it becomes a self-perpetualizing, you know, wheel, you know?
00:13:07 - Angela Brunson

Right. Then it's not a matter of making time for it. Then it's a matter of, you know, am I going to do it first thing today or the second thing?
00:13:14 - Craig Muirhead (nsnconstructionnw@gmail.com)
I'm going to, you know? Yeah. So I've got some good news and some bad news for you.
00:13:19 - Angela Brunson
So which would you like first? Let's do bad news first.
00:13:23 - Craig Muirhead (nsnconstructionnw@gmail.com)
See, why does everyone want the bad news first? I don't know.
00:13:26 - Angela Brunson
Everybody goes to the news first. Rip the Band-Aid.
00:13:28 - Craig Muirhead (nsnconstructionnw@gmail.com)
Yes, rip the Band-Aid off. Well, the bad news is you're going to be sick of my voice because I'd like to offer you a place in the program.
00:13:37 - Angela Brunson
And so the good news is there was no bad news.
00:13:42 - Craig Muirhead (nsnconstructionnw@gmail.com)
So as far as I'm concerned, what we talked about on the first call is everything that we do in the program. You know, all of the issues that we've talked about is literally, you know, what we can address, deal with and give you solutions to and give you a brand new approach. Yeah, I knew it was going to happen.
00:14:11 - Angela Brunson
was like, how can he not take me? Everybody loves me.
00:14:16 - Craig Muirhead (nsnconstructionnw@gmail.com)
Good stuff. Good stuff. Okay, well, congratulations. So, yeah, I mean, are you feeling excited, nervous?
00:14:23 - Angela Brunson
You know, it's a big leap in a different direction for you? No, I'm feeling ready.
00:14:33 - Craig Muirhead (nsnconstructionnw@gmail.com)
I'm just like, that's the best word to describe it. Yeah, excellent. Okay, so all we need to do then, because we can do the onboarding on this call, all we need to do really is organize the payment for you and then do the onboarding. So did you have a think about how you wanted to do that?
00:14:48 - Angela Brunson
Yeah. So we want to put some points on one of the credit cards to get some flights, you know? Okay, yeah. My mom has never seen me race.
00:14:59 - Craig Muirhead (nsnconstructionnw@gmail.com)
She's...
00:15:00 - Angela Brunson
She's to awards banquets. She's seen me win championships and make nice speeches and get dressed up. So she's coming for the March round of CVM. And I was just talking to her today. We talked every Saturday or Sunday. So I called her and I said, you know, I can't talk long. I have a Zoom call. And she's just like, this sounds perfect for you. You know, you've had marathon coaches. You've had other motorcycle coaches. You've had hockey coaches. Like, you are a person, like, you are good at being coached. And we've always talked about how, like, even Olympic athletes still, you know, you don't get to a point where you're like, yeah, I'm done. I don't need you. You know, people always want to maintain or improve. So she, I said, I think what this will involve too, like maybe a Zoom call after the race or once a month, and maybe it'll land on when you're here. So like, she was just excited.
00:15:53 - Craig Muirhead (nsnconstructionnw@gmail.com)

Great. Yeah, no, that's ideal. Because yeah, again, having the support of the people around. It was also important, you know, that they understand what you're dedicating your time to as well, you know.
00:16:05 - Angela Brunson
Yeah, so I told her, well, when I pay Craig, I'm going to put it on the card that will get you the points to get you to come from Florida to Southern California for that March race weekend.
00:16:17 - Craig Muirhead (nsnconstructionnw@gmail.com)
Yeah, fabulous.
00:16:18 - Angela Brunson
Yeah, that's great.
00:16:20 - Craig Muirhead (nsnconstructionnw@gmail.com)
So it's a win-win. I like win-wins.
00:16:22 - Angela Brunson
And then I purposefully set up in the garage so you can see what I have to do today.
00:16:27 - Craig Muirhead (nsnconstructionnw@gmail.com)
Yeah, so that's the 500, yeah?
00:16:30 - Angela Brunson
Yeah, yeah. So the body work came back, it's painted, and then that's his new 660 that, so we had the matchy-match paint done, which I kind of regret doing because, you know, there are people who race a certain way to keep the bike looking pretty. I don't want to be one of those people, but it certainly does look pretty.
00:16:53 - Craig Muirhead (nsnconstructionnw@gmail.com)
I just wanted to get my credit card. No problems. Yeah, it's probably best if we do it on the phone anyway. Because you'll probably get a ping or two saying there's somebody in Spain trying to charge you, you know?
00:17:05 - Angela Brunson
Oh, right. Right. Yeah. And so it's a good thing I'm on my laptop, so that way I can answer the phone and tell them it is not fraud. You know, I am curious, like, one thing, you know, like, let's say I was, you know, the 15 or 20 year old kid who hasn't necessarily... necessarily fallen into the, the doldrums, if you will, when it comes to this. Like, that's a, that's a kid that gets maybe a different approach from you? Or that's just a kid Somebody that's actually performing quite well. Yeah. And still giddy and excited about it.
00:17:50 - Craig Muirhead (nsnconstructionnw@gmail.com)
Yeah.
00:17:50 - Angela Brunson
Well, the, I tend to get the people when the, when the, the wheels have fallen off the wagon, to be honest.
00:17:57 - Craig Muirhead (nsnconstructionnw@gmail.com)
Okay. Because it, like we said before, It's a feeling sport. So when things are going well, even though the rider doesn't actually know why it's going well or how to be able to duplicate it.
00:18:15 - Angela Brunson
They're not seeking coaching.
00:18:16 - Craig Muirhead (nsnconstructionnw@gmail.com)
Yeah. So they're generally in a space where they don't touch anything, you know, I've got to use that boot that I've worn for three years, you know, because and they're a bit superstitious about where they're performing. It's comes from. But what it means is that I've got a real spectrum of people, you know, from, you know, up and coming want to be in MotoGP to hobbyists, to people that had 20 years off and are coming back to racing or in general, they all have that common

theme of, you know, I need something. Yeah, they've all, they've all got, a common theme of of wanting to be better next season or next round than they were at the last one. So they all feel they've got more potential and they are looking to unlock that potential. So that's the only common factor that, you know, different countries, different backgrounds, different race levels, but literally all of them feel I could do more. Whereas some people are like, you know, I'm perfectly happy. There's some people who are 25th every weekend, but they're perfectly happy being 25th because it's lower investment, lower risk, just enjoy the barbecue, drinking till midnight, you know, and then getting up at 7am. That's fine, but they're never going to be on my program.
00:19:41 - Angela Brunson
You know, I see. I was trying to figure out like, who do you distinguish as far as like, you would not be a good fit.
00:19:48 - Craig Muirhead (nsnconstructionnw@gmail.com)
Yeah. So, you know, the people that say, none of those seven, I've dealt with some teams in the past where other people have gone, you need to work with this rider. But guess what the rider? He's like, the team needs to sort the bike out. So he doesn't think there's anything he can do. And on things like the seven biggest mistakes or whatever else, he'd be like a 10 out of 10, I'm a 10 out of 10, I'm a 10 out of 10. And then you go, okay, so why are you 17th then? That's because of the team. They just keep on giving me a rub. So he's just in the blame game.
00:20:21 - Angela Brunson
It's nothing to do with him, you know? Yeah.
00:20:23 - Craig Muirhead (nsnconstructionnw@gmail.com)
Yeah. So, so it's almost like a timeline. He's got to change teams, change manufacturers, you know, and still be 17th. And then finally he goes, well, actually, maybe I'm the common denominator here, you know?
00:20:37 - Angela Brunson
Yeah. Yeah. And you can't coach somebody until they reach that place.
00:20:40 - Craig Muirhead (nsnconstructionnw@gmail.com)
Exactly.
00:20:41 - Angela Brunson
Yeah. It's me. It's not them.
00:20:43 - Craig Muirhead (nsnconstructionnw@gmail.com)
Yeah.
00:20:43 - Angela Brunson
Yeah. That makes sense. Yeah. I wasn't sure if like, there's different, I would think it would be hard for you to be like, okay, she's the plan A. girl who needs to find the joy again. And this is the kid that's already loving it. And we're trying to off. You know, like it's, it sounds more like a, I don't want to say one size fits all. It's one size fits all who are in this same mindset, same position, unlocking, unlocking.
00:21:10 - Craig Muirhead (nsnconstructionnw@gmail.com)
You are right. I have tried to go down that route of different, you know, different sizes for different people. But the truth is everything's connected. So, you know, for us, like we went through the modules looking at how that impacts belief system and how belief system impacts your confidence. And then, and then you've got tools. So when you go, right, we're just going to deal with mindset. Great. I've got a solid mindset, but I've got no tools to actually get myself back into that mindset because they're later in it's in the program. So it's ended up being, you know, literally, we need to, we need to give you a holistic approach for you to be at your best. And rather than just, you know, a, a, if there was a, you know, a quick fix, I'd be a gazillionaire. Yeah,

because I'd be at every race weekend just going, just do this, just do that, and then taking the cash. But the truth is, there isn't a quick fix. It's not one thing in isolation, it's everything in combination.
00:22:16 - Angela Brunson
Yeah. Yeah, I think it's the reprogramming, right? And I don't think I have necessarily bad habits that need to be broken, except in my mind, if that makes sense. Because every time I've gone to a writing school and someone said, you know, lower the shoulder, let's have you turn your head more, get off the bike more, get off the bike less, whatever. Like, I'm very good at being adaptable, so much so that, you know, if you ask me what my body position, I'm like, I don't know. I've tried it all. Like, I do what just seems to, you know, like, the physicality, putting the mental aside, you know, I'm confident that it's not like, oh, she, you know, Angela is going to progress with Greg mentally, but it's this.
00:23:02 - Craig Muirhead (nsnconstructionnw@gmail.com)
I'm absolutely certain of that. Yeah. You know how to ride a bike. You know, what we need to do is stop you from stopping yourself riding a bike. yeah, that's all we need to do. And even, you know, even somebody that's maybe only got a year or two under their belt still knows how to ride a bike. Yeah. might not be as proficient as other people, but they can be far faster if they forget about the technique, forget about what they've been told training, and then just literally connecting the dots when they're in a race weekend. You know, you can go to the track to develop your skills, which isn't using flow because you are going, I need you to point me out this and point me out that. But when you come to the race weekend, that's why I don't need to be at the race weekends with everybody, because all you need to do is execute at the race weekends. That's all you need to do. just need to have gathered the information, have the structure and execute it. And then we'll appraise what was strong and what can be stronger, you know?
00:24:04 - Angela Brunson
Yeah. Yeah. It's exciting because I'm going into this race weekend with a new bike and already I'm not worried about the bike. Like, I don't care. I'm not pre-excuses, I guess. Like, oh, well, just remember it's, you know, we were not dealing with suspension and, you know, like, like I'm going to have these built in, like, yeah, it was a good weekend, except it was a new bike and it's not really ready yet. So that explains why you've already got your safety net. Like none of that is in my mind right now. It's more of like, I can't wait to like approach this race weekend, not caring about the new bike and just seeing what kinds of mental progress I make.
00:24:44 - Craig Muirhead (nsnconstructionnw@gmail.com)
Yeah.
00:24:45 - Angela Brunson
ideally, I'm not going to go out there and do a three minute lap, but, but even if I did, and I'm not in my brain as much during those three minutes left, I think that I think I can be happy with that. You know, and there's some tools.
00:24:59 - Craig Muirhead (nsnconstructionnw@gmail.com)
I mean, Today's Saturday, isn't it? So there are some tools that we can definitely have in place going into the next weekend. I don't want to overload you either. I want you to still be going in with, you know, everything's fresh, everything, whatever, you know, even if you did one lesson between now and next weekend, that's a new lesson that you didn't have before. So everything, a lot of people go, oh, I've got to try and cram everything in to have as much knowledge as I can, but everything is progress. So we want to just be taking in the information we've got, we can get you on board today. You can do the initial setups today and literally start your first module in Racing Mind tonight. That will take us through definitely some really powerful tools by,

is it Friday?
00:25:51 - Angela Brunson
Do you go for the test day on Friday? Yeah. So I, we leave Thursday. We like to try to set up the pit and everything while there's a little bit of daylight on Thursday. And then Friday is one of those, this group goes for 15 minutes, this other group, you know, like there's four groups and they rotate. So that'll honestly just sort of be like shaking out the bike, seeing, and I predict there will be a lot of like, well, I don't like where my shifter is.
00:26:15 - Craig Muirhead (nsnconstructionnw@gmail.com)
Yeah, of course, you're going to change. Yeah.
00:26:17 - Angela Brunson
Yeah.
00:26:18 - Craig Muirhead (nsnconstructionnw@gmail.com)
And I wouldn't advise you to do any training with me over that weekend.
00:26:23 - Angela Brunson
Okay.
00:26:23 - Craig Muirhead (nsnconstructionnw@gmail.com)
So we stop on Thursday with your last module and wherever that is, and then you're concentrating on, you know, riding the bike and getting the feeling, because that's what it comes down to, getting a good feeling with the bike. And then you'll be applying what you've, what you've learned so far. Whereas if you're trying to take in the training and trying to race as well, I don't, I don't advise that.
00:26:48 - Angela Brunson
Okay. So is there anything that like you've suggested, like, I want you to try to work your way up through module X number, Yeah.
00:26:59 - Craig Muirhead (nsnconstructionnw@gmail.com)
That's what I was just going
00:27:02 - Angela Brunson
Yeah, like I would like to try like a some type of technique, something. And I like the fact that you recognize, you know, there are people who try to cram all this stuff in. Like every time I go to the track and the coach is like, okay, in turn six, I want you to do this. And every time you do that, I want you to do this. And don't forget that, you know, like, let's work on pushing the breaking references back, but also like entering speed further.
00:27:27 - Craig Muirhead (nsnconstructionnw@gmail.com)
Like, no.
00:27:27 - Angela Brunson
Yeah, I when I coach myself, it's basically me and my aim solo to and I tell myself, I know I can enter seven faster, I'm going to keep everything else the same. And I'm just going to work on my turn seven entry speed. Yeah. And that is usually when I have some breakthroughs and make some progress is because I'm working on one thing. So I'm hoping that there might be sort of like one mental thing I can explore. Absolutely.
00:27:52 - Craig Muirhead (nsnconstructionnw@gmail.com)
So I'm just looking at the days. today's Saturday, if you've got started today, Saturday, Sunday, Monday, Tuesday, Wednesday, Thursday. So Thursday is going to get us to, and that's doing one a day. I mean, this is your program. You can go, listen, I'm perfectly capable of doing one 10 minutes in the morning, one 10 minutes in the evening. If you wanted to do that, I'm not going to stop you. I just don't want you to binge watch it all and go, all right, I've watched the whole module, because you won't be able to remember what happened at the beginning when you get to the end of the last one. But if you wanted to do one in the morning, one in the evening, and

you're happy with that, then that's also fine. There's literally 11 lessons in the first module, but training five, how the brain works, really, really beneficial, which leads into overcoming distractions and mind chatter, okay, which is training six. So those, those two, I don't want I jump straight to them. want you to start in sequence. But, you know, we're talking about fixed and growth mindsets. You might, well, we'll talk about David Goggins, which you'll already know about, I'm sure, with the ultramarathons.
00:29:16 - Angela Brunson
Oh, yes.
00:29:17 - Craig Muirhead (nsnconstructionnw@gmail.com)
Yes, you know, so there's a few things that you might just go, I know that already, Craig, which is fine because all it does is reinforce it's the right thing to be concentrating on. But lesson five, lesson six, lesson seven, lesson eight, and lesson nine will then lead you to the race weekend structure, which is the lesson ten. So, to be honest, if we could get through two a day over the next five days.
00:29:51 - Angela Brunson
You get to ten.
00:29:52 - Craig Muirhead (nsnconstructionnw@gmail.com)
You would have the structure, you'd have some tools, you'd have some apps to help you, and you'd understand why that. That drunken monkey doesn't shut up, and you'll have tools to shut it up.
00:30:04 - Angela Brunson
Yeah. So maybe think about going into the race weekend after, you know, absorbing modules of, let's focus on, let's look at how many times I could experience, hey, there wasn't a drunken monkey chattering at me. Maybe it's just one or two turns out of, you know, six laps, but maybe it's two or three laps out of six laps, right?
00:30:25 - Craig Muirhead (nsnconstructionnw@gmail.com)
And then what we'll also have is the app. So the app will be getting you to appraise exactly how that was, how focused were you, how loud was your inner critic? And you're going to go, it was a one out of 10, or it was a nine out of 10. Yeah. So we're going to be able to see with feedback on what's, what's moving for you as well. Okay. But yeah, I think that would be, and if, and if you wanted to, you could always go back after the race weekend and recap, you could, you know, I've got a lot of people that literally go, right, I've finished a module and now. just going to, I am going to watch them all through just to make sure that they all, you know, all the information settled in just depends on your learning style. So everyone's got different learning styles, but, but it's, it's yours to, you know, fast forward and rewind as much as you want, but certainly having those under your belt, it's a very, it's a very, very strong building block bed, bedrock for you, for you to have.
00:31:27 - Angela Brunson
Okay.
00:31:28 - Craig Muirhead (nsnconstructionnw@gmail.com)
Yeah.
00:31:28 - Angela Brunson
Well, is it credit card time?
00:31:31 - Craig Muirhead (nsnconstructionnw@gmail.com)
Yeah. Yeah. So I just, I just need your phone number to be able to put in so that you're getting the, the SMSs for any updates and any releases as well.
00:31:42 - Angela Brunson
Yeah. Yeah. So the phone number is, you dial one for the United States.

00:31:46 - Craig Muirhead (nsnconstructionnw@gmail.com)
Yeah.
00:31:47 - Angela Brunson
3-2-3-3-2-3-3-5-3-3-8-0-0.
00:31:56 - Craig Muirhead (nsnconstructionnw@gmail.com)
Is there enough threes in that? 3-2-3-3-5-3-5-3-3-0.
00:32:00 - Angela Brunson
3800. Yes.
00:32:02 - Craig Muirhead (nsnconstructionnw@gmail.com)
Okay, perfect. So, yeah, I just need the long card number.
00:32:11 - Angela Brunson
4266-8417-9501-7555.
00:32:21 - Craig Muirhead (nsnconstructionnw@gmail.com)
Okay, I'll just read that back to you. I've got 4266-8417-9501 Correct. Okay, just the expiry?
00:32:39 - Angela Brunson
1228.
00:32:40 - Craig Muirhead (nsnconstructionnw@gmail.com)
Okay, and is that your FedEx man?
00:32:44 - Angela Brunson
No, it's the mailman. So, no, it was a FedEx tag on the door saying I need to be here to sign. It's not the regular postal man.
00:32:54 - Craig Muirhead (nsnconstructionnw@gmail.com)
And then just the three digits on the back?
00:32:57 - Angela Brunson
Oh, yeah. 7-7-8
00:33:01 - Craig Muirhead (nsnconstructionnw@gmail.com)
772. Okay, so it's going to be £4,000, but obviously it will bill you in dollars, and you'll probably get a ping now from your bank.
00:33:12 - Angela Brunson
Yeah, waiting for it, ready.
00:33:22 - Craig Muirhead (nsnconstructionnw@gmail.com)
Okay, so yeah, it's saying, I'll just have to check I got it right, it's saying that the card was declined.
00:33:29 - Angela Brunson
Yeah, let me try going into the app, maybe, because I'm not getting the ping. Oh, yeah, here it is. Here's the ping. Yeah. And I think usually I just have to say, was this an option? Yeah, it was me sort of thing, yeah. Right.
00:33:45 - Craig Muirhead (nsnconstructionnw@gmail.com)
Which is right, isn't it?
00:33:46 - Angela Brunson
They should do that. Yeah. And it says, if yes, you will not be charged unless the purchase is attempted to gain.
00:33:54 - Craig Muirhead (nsnconstructionnw@gmail.com)
So now the ball is back in your court. Okay. Okay.
00:33:57 - Angela Brunson
So we'll give it another poll. Please ask the merchant. Yes, please ask Ask the merchant if they have already reprocessed the transaction before you try again, yeah.
00:34:06 - Craig Muirhead (nsnconstructionnw@gmail.com)

Okay, so we try again now? Yes. Okay. Yep, that has gone through.
00:34:18 - Angela Brunson
Awesome. You're telling me about your first time.
00:34:22 - Craig Muirhead (nsnconstructionnw@gmail.com)
No, it's right, isn't it? Because you don't want some, you know, you don't want any amount really without your authorization, do you?
00:34:28 - Angela Brunson
So it's good.
00:34:28 - Craig Muirhead (nsnconstructionnw@gmail.com)
Okay, so you're now going to get an email, which has got a magic link in it, to take you through to the main platform. I'm going to send you also an email for the one-time password for the app. So when you get to, the first one is how to get, the first module once you go into it is how to get the most out of an online training platform. So they're just, you can watch back to back-back, they're five minutes each ... We'll take half an hour. The second one is loading the app, downloading it, and setting the app up. I'll send you a one-time password. You just put that in once. Choose your championship, which is in there.
00:35:14 - Angela Brunson
CVMA is in there. Oh, wow. Cool.
00:35:17 - Craig Muirhead (nsnconstructionnw@gmail.com)
And then you would then just, I think then it actually kicks you out once you've chosen it. And when you go back in, it asks you to put your own password in. And then once you've got your own password, it shows and, you know, you've got access then. So the idea of the calendar for CVMA being there is that it will send you a reminder to do a debrief. So it will say you've been out for FP1, do a debrief. And I might just have to put your class in.
00:35:51 - Angela Brunson
What class are you riding in? Okay. So the one I care about, I've ride in a couple because a lot of people do multiples there, don't they? Yeah. Yeah. So. The one I care about is called FemmeWalla, it's all one word, F-E-M-M-E, Walla, W-A-L-L-A, lightweight, no, ultra lightweight. Ultra lightweight, right, okay. Yeah, and it's a little tricky because there's a race called FemmeWalla, and what it is is it's two waves. The girls on 501cc get the first green flag, and when they're, you know, 10 seconds down the track, then the girls on under 500cc bikes, that's me, get the second green flag, and that's the one I've won the championship for the past three years. Right. And this year is not looking so good. Yeah, well, I hadn't been looking so good in the past, so.
00:36:43 - Craig Muirhead (nsnconstructionnw@gmail.com)
Yeah, okay.
00:36:44 - Angela Brunson
I truly feel the 457 was not a good, just, was not a good, well, we're going to change that, we're going to change that, so I'll make sure that that championship is in the app, and so you just select that, you go to CVMA, and then you.
00:37:00 - Craig Muirhead (nsnconstructionnw@gmail.com)
You pick which class you're racing.
00:37:01 - Angela Brunson
And it only lets you choose the one? It doesn't let you choose any other championships?
00:37:05 - Craig Muirhead (nsnconstructionnw@gmail.com)
Yeah, well, what it's basically doing is choosing the calendar. So, to be honest, I don't know if you know Lee Callens?
00:37:17 - Angela Brunson

Yes, yeah, he's a good guy.
00:37:19 - Craig Muirhead (nsnconstructionnw@gmail.com)
Yeah, Lee's been on the program for just over a year now.
00:37:23 - Angela Brunson
He started maybe August or September in 2023. Yeah.
00:37:29 - Craig Muirhead (nsnconstructionnw@gmail.com)
And he did Utah in the summer. So, Lee does multiple classes as well. Yeah. So, what's the other ones that you do?
00:37:43 - Angela Brunson
Yeah, the reason I think the other ones matter is because in the girls' ultra lightweight, there might be five of us. So, seeing if you're looking at, you know, Angela went from a bunch of second or third places to second, you know what I mean? Like, it's not as big of a progress. But in 500 Super Sport, right, that's the other one I do. And keep in mind, I think they do categorize us or they give us different waves. There's four waves. There's 500 Super Start experts, 500 Super Start amateurs, and then in the same race, but different waves are the 350 experts and the 350 amateurs. So because you're going to see a grid of 40 riders, and here's what sucks, I'm in the front grid, usually in the last, usually near the last. And my goal is now, and this is how bad it's become, is not to be dead last out of all of the other 500 amateurs, 350 experts, and 350 amateurs. So that, I think, will matter in terms of, let's not look so much at starting 15th on the grid. Let's look at, yes, she started 15th on the grid out of 50 riders, but did she finish 49th? 49th? Or did she finish 40th, right? Because this is also a bunch of 14-year-olds who were doing 155s on a little bike, yeah.
00:39:10 - Craig Muirhead (nsnconstructionnw@gmail.com)
So you can do as many debriefs as you like over the weekend because you actually title what that debrief is for. And so what the calendar is doing is basically knowing that you're on track that weekend. So it's sending you the reminders. But yeah, if you're out at 10 a.m. and then again at 11.45 and then at 1 o'clock in three different classes, you can debrief on all three of them.
00:39:37 - Angela Brunson
Okay. Yeah. And the third class is the Formula 40 Ultra Lightweight.
00:39:45 - Craig Muirhead (nsnconstructionnw@gmail.com)
Right. Okay. Yeah. Okay.
00:39:48 - Angela Brunson
Perfect. And I always thought this is a great class for me when I was younger or, you know, in my 40s and started. And I was new. I thought, bunch of 40-year-olds who all have jobs on Monday, they're not going to, you know, they're to be slow. And the... The first time I ever raced that group, I was on the 250, and a bunch of them were as well, and as soon as the green flag dropped, I realized, oh, they've been racing for 37 years, you know, and that was my first race, so in a six-lap race, I got four laps in before I saw the chocolate flag.
00:40:17 - Craig Muirhead (nsnconstructionnw@gmail.com)
I got lapped twice by old guys on 250s, so...
00:40:23 - Angela Brunson
Yeah, yeah, who, who, yeah, exactly, they've been around, they've been around a bit. Yeah, yeah.
00:40:27 - Craig Muirhead (nsnconstructionnw@gmail.com)
So, the other aspect is, on the email, you've got a link to a sort of, basically a snapshot of your baseline, so it's your starting levels. So, it's a questionnaire that you, similar to what you've already done, and it's also got your T's and C's in there as well, just to sign off to say that you're

happy with the terms and conditions of the course. Right, And your address as well, because we'll send out the hard copy book, and also the headband to you. I'm I'll should've it's
00:41:00 - Angela Brunson
Yeah, I'm curious about that.
00:41:01 - Craig Muirhead (nsnconstructionnw@gmail.com)
Yeah, this is also very, you can speak to Lee about that at the weekend, you know, so we'll And that comes into play later, right? That comes into play, the headband comes into Yeah, a little bit later. We'll get it shipped to you. We don't need it to begin with, but when we get it, we'll then be using that as well.
00:41:22 - Angela Brunson
It's almost like another level of feedback for you. Yeah, yeah, cool.
00:41:27 - Craig Muirhead (nsnconstructionnw@gmail.com)
Yeah, good. So yeah, so it's fairly self-explanatory. I'm sure you'll navigate it fine. If there is any issues, then obviously just message me straight away. But yeah, we'll have a call at the end of the module anyway to make sure. And obviously that will also be after the race weekend, so we can really see, you know, how that all worked for you. If you want to call on, say the Thursday before, if there was any questions or anything going into the... Great weekend. There's my diaries at the end of the module. You just jump to there and book a call. And if you wanted to put that in on Thursday, if you've got the time just to run through anything, if you've got any questions, feel free.
00:42:12 - Angela Brunson
Okay.
00:42:13 - Craig Muirhead (nsnconstructionnw@gmail.com)
Okay, good. And then it's just about doing the work now.
00:42:16 - Angela Brunson
Yeah. Yeah, working on the bike and this.
00:42:20 - Craig Muirhead (nsnconstructionnw@gmail.com)
Yeah. Yes. Yeah, exactly. Yeah.
00:42:21 - Angela Brunson
No reason why you can't have them running both at the same time. I was just going to say that's kind of my plan is I'll keep the laptop out here and start module one.
00:42:27 - Craig Muirhead (nsnconstructionnw@gmail.com)
So wait, just so I'm seeing it right.
00:42:29 - Angela Brunson
A module is, it consists of lessons.
00:42:35 - Craig Muirhead (nsnconstructionnw@gmail.com)
Okay. Yeah. So it's a group, a module is a group of lessons about the same topic.
00:42:40 - Angela Brunson
Okay. Oh, all right. Great.
00:42:42 - Craig Muirhead (nsnconstructionnw@gmail.com)
And so they're all grouped together in a topic. The first one is literally, you can just watch it back to back. And it's just all about how to get the most out of it. And then the second one is how to get yourself on board the app. And then the third one is racing mind. And that's the first training lesson, if you like.
00:43:00 - Angela Brunson
And you would suggest maybe keeping like a sturdy notebook and pen with me while watching and also at the track to take notes?
00:43:09 - Craig Muirhead (nsnconstructionnw@gmail.com)

Yeah, so I'm going to post you one out, but it will obviously take, you know, 10 days to get to you, but you will get a, you know, a book that actually accompanies the course. So it's got some additional content in it. Yeah, it's like a blank paper, right. But yeah, but as long as you are making notes of what stood out for you, if you're, if you're going, all right, so goal setting needs to be small, meaningful goals, that whatever you write down is when you look at that in September, you know, when you're looking at goal setting, it takes you right back to your learning. So it's a very powerful way to connect to you to the new information.
00:43:48 - Angela Brunson
Yeah.
00:43:48 - Craig Muirhead (nsnconstructionnw@gmail.com)
So yeah, making notes really, really important.
00:43:51 - Angela Brunson
Okay.
00:43:52 - Craig Muirhead (nsnconstructionnw@gmail.com)
Good stuff.
00:43:53 - Angela Brunson
Okay.
00:43:53 - Craig Muirhead (nsnconstructionnw@gmail.com)
Yeah, thanks for your time.
00:43:55 - Angela Brunson
Yeah, thank you.
00:43:56 - Craig Muirhead (nsnconstructionnw@gmail.com)
great to have you on board and yeah, it's going to be a busy week and we'll, we'll get stuck. And have a new approach going into this weekend.
00:44:05 - Angela Brunson
Okay. I'm looking forward to it for a change. Yeah. It feels good to say it even.
00:44:09 - Craig Muirhead (nsnconstructionnw@gmail.com)
Thanks. One last thing. Do you have a company or do you work for somebody or do have a company? Because if you need an invoice, I can also provide an invoice to put it through any books. But you need to have your own company. Some people have a racing company and whatever.
00:44:27 - Angela Brunson
Yeah. I mean, I do. I created an LLC and it just helps me write off like, you know, the tires and all that.
00:44:38 - Craig Muirhead (nsnconstructionnw@gmail.com)
If you want to, I can put it down as management training or, you know, I can put it down as something that can be a bit more mainstream because racing is quite hard to get anything through the books. Whereas, you know, where development training or, you know, uh, management development can normally go through.
00:44:56 - Angela Brunson
Okay. I like that management development. Yeah. That looks. That's good. That'll look good because my company is called Moto GoGo. And I'm a coach. And really what it is, is I have friends who I say, hey, if the IRS asks, you paid me $500 to train you this weekend. And I don't train. You know, they're like, yeah, yeah, got you. Because they do the same thing. And that way we get to write off the depreciation or the interest on the toy hauler.
00:45:27 - Craig Muirhead (nsnconstructionnw@gmail.com)
And yeah. Yeah, exactly. Yeah. You've got to get creative because they're not helping us. That's for certain.

00:45:32 - Angela Brunson
Yeah. And my IRS lady, she knows. She's like, just remember, sometimes that, you know, there are certain things that will trigger the IRS to wonder if you're really running a business or you're trying to offset the cost of a hobby. And she's like, I understand we're offsetting the cost of the hobby. So she'll be proud of me for actually, I'm glad you suggested that. So yeah.
00:45:52 - Craig Muirhead (nsnconstructionnw@gmail.com)
If you could send me an email at some point of what the company details are that you want on the invoice. She'll say.
00:45:59 - Angela Brunson
She'll She'll And the address and whatever, then I'll send you an invoice through. Okay.
00:46:04 - Craig Muirhead (nsnconstructionnw@gmail.com)
Yeah. Perfect. Okay, great.
00:46:06 - Angela Brunson
Thanks. Enjoy the rest of your weekend.
00:46:08 - Craig Muirhead (nsnconstructionnw@gmail.com)
You too. Take it easy and we'll speak soon.
00:46:10 - Angela Brunson
Bye-bye.
00:46:11 - Craig Muirhead (nsnconstructionnw@gmail.com)
Bye-bye.
