Sam hirst: Rider Championship Strategy Session - September 10

VIEW RECORDING - 42 mins (No highlights)

@0:00 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

How bad are you? Yeah, not too bad, thank you. Whereabouts are you now?

@0:04 - **iPhone**

Just in my car. Right, okay. The house is a little bit mental at the minute, so I just thought I'd pop out for 10 minutes.

@0:10 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Right, okay, fair enough.

@0:12 - **iPhone**

Yeah, good.

@0:12 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Well, we're a bit longer than 10 minutes if you've got that time.

@0:15 - **iPhone**

Yeah, yeah, perfect.

@0:16 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Take all the time you need. It's all good.

@0:18 - **iPhone**

Good.

@0:20 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Well, the idea of this call really is to a bit of fact-finding from both sides for you to ask me any questions.

And obviously, just to get to know you, I know a little bit more than I did three days ago.

days ago. Yeah. Because obviously you've gone through the mini course.

@0:38 - **iPhone**

How did you find that mini course? I didn't mind it, to be fair. was quite like knowledgeable and I learnt quite a lot of stuff that I didn't realise that sort of was...

There's so much more included in it than like just off a first basis thought, do you know what I mean?

@0:55 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Yeah, yeah, no, absolutely. As long as you found it relevant and...

@0:59 - **iPhone**

don't

@1:00 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Yeah, worthwhile. That's it. That's important. And so maybe you could start by telling me why you decided to book a call at the end of it, because some people might go, yeah, that's all interesting stuff.

Thanks a lot. But you went, no, let's let's book a call.

@1:16 - **iPhone**

Why is that? Just because I thought I really want to get to my potential. And I feel like at the minute, I've not hit that potential.

I've sort of hit it previously, but it's only been like dribs and drabs. But yeah, I just want to prolong that and make it lengthier and obviously to progress in my racing career.

@1:41 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Yeah, no, absolutely. That makes sense. And yeah, you get those fleeting sessions where everything clicks and it feels great.

@1:49 - **iPhone**

And then you think, oh, I'm on it now. And then the next session, it's gone again.

@1:52 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Yeah, perfect.

@1:54 - **iPhone**

Yeah. That's how it is.

@1:55 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Yeah. So what would you say are the top two? I'm looking over here because I've got another screen.

@1:59 - **iPhone**

So if you see.

@2:01 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

I'm not cross-eyed. What would you say are the top two or three struggles that you face at a race weekend?

@2:12 - **iPhone**

Definitely overthinking. I feel like on the overthinking side, it's more like if I don't do this, then this is going to happen and et cetera, et cetera, et cetera.

And the other one really is just sort of like getting to the point where I actually feel comfortable.

@2:36 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Okay.

@2:39 - **iPhone**

More or less with like my riding more than anything else.

@2:43 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

So taking a long time to get up to speed?

@2:46 - **iPhone**

The speed's not really the pattern of play. It's more like the actual feeling on the bike where I feel, okay, yeah, I'm back to where like...

M6 M8 M9 I feel good. It takes me a long point. I can go out in first session and do maybe, I don't know, a second off where I should be and still feel half all right, but I don't feel like, yeah, I can sit here and get comfortable in like a flow state sort of kind of thing.

@3:19 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Yeah, okay. So that leads to you thinking on the bike as well, because maybe you've been out for six laps and you're going, right, I'm still a second off where I want to be.

@3:28 - **iPhone**

What's going on?

@3:30 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Is it me? Is it the tyre? Is it the track?

@3:32 - **iPhone**

Is it the setting?

@3:33 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

And that sends it into a bit of a tailspin as well, doesn't it?

@3:37 - **iPhone**

Yeah, it can do, yeah.

@3:38 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Okay. All right. Fair enough. So overthinking, long time getting feeling comfortable or feeling ready to be able to push to the max.

Anything else?

@3:48 - **iPhone**

No, not really. I don't really, I don't don't really struggle with much. Like around me, I've got a massive support group and they're all mega in what they do and for the bike wise and stuff like

So there's not really an awful lot that goes on in my weekend, to be fair with you. I'm quite happy, I help, I sort stuff out with people, I go see people, do you know what I mean?

I'm proactive on a weekend, so there's nothing on that side that I feel like is wrong, to be fair.

@4:21 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

What about frustration when it's not going well?

@4:25 - **iPhone**

Yeah, there's a little element of that at times, but it's also, I've been on the flip side where it's been like, oh, this is what we're doing, this is what we're doing, this is what we're doing, and then like a lap later, it's like, oh, that wasn't that bad, like, yeah, we're sorted now.

@4:42 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Yeah, exactly. So yeah, sometimes it sort of miraculously fixes itself.

@4:46 - **iPhone**

Yeah.

@4:48 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Okay. So how long do you think the overthinking, and the long time to getting comfortable has been holding you back?

How long have you felt that?

@4:57 - **iPhone**

Oh, probably since I started racing.

@4:59 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

I didn't. How long have been racing?

@5:01 - **iPhone**

I've only been racing now since 2022.

@5:06 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Okay, yeah.

@5:08 - **iPhone**

I did a couple rounds at the end of 2021. I only did two rounds with Undersport at end of 2021, and then I jumped to Bemze.

Did a year on the 300s, and then since then I've been in 600s. So I did the first year I was Clubman, then the last two years I've been MRO Championship.

@5:27 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Yeah, okay. Yeah, good. And because Undersport ended, it's actually brought quite a lot of riders into that class, hasn't it?

Yeah, it has, yeah, yeah. Yeah, so there's some fast lads there for sure. So what does that end up costing you?

Because you sound quite aware, so if you get to feel that you've gone into overthinking, or that you're, you know, taking time to feel comfortable, what does that actually, you know, do to you?

How does that actually, you know, affect you?

@5:58 - **iPhone**

What does it cost you? Oh, How I Okay. How do I like it puts me on the side that you mentioned and I sort of get frustrated with myself like I don't need to be thinking about this but subconsciously I am and it's sort of playing on my mind a bit and that probably leads to a little bit more frustration where it just needs to be like totally zeroed out and just reset again.

@6:21 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Yeah, and then you get frustrated because you've actually gone down that avenue with it. Yeah, yeah. Yeah, okay, yeah, I can see that.

And there's a lot of people spend their whole weekends like that, they spend their whole seasons like that to be fair and honest but they don't know what the alternative is.

But when you know what the alternative is, you can stop yourself pretty quickly from going that way. Have you tried any, have you tried anything else to fix it?

Have you done anything else that, you know, to try and overcome this?

@6:52 - **iPhone**

Not really, no.

@6:53 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Overthinking or anything?

@6:54 - **iPhone**

No, not really.

@6:55 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Okay, so this will be the first time to try and fix it?

@6:59 - **iPhone**

Yeah, yeah. I sort of just... Just try and go like, oh, I'll swap myself out.

@7:03 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Do you know what I mean? Yeah. We're in a macho sport. So to be honest, everybody is like, shake yourself down, come on, you know, go again.

But the problem with that is that if we don't identify what the problem is, you see a lot of riders, you watch MotoGP or whatever, and you see a lot of riders, they're just like this, you know, next round, next round.

But if you haven't actually solved what the problem was, the next round is going to be very similar. Yeah.

@7:25 - **iPhone**

You know, so it is.

@7:27 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

It's like anything. It's like work. It's like anything. If you if you're doing doing something and it's creating the wrong outcome, you've got to change the ingredients, you know?

@7:36 - **iPhone**

Yeah. Yeah.

@7:36 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

A hundred percent. And so that's good. That's excellent. Any idea what your budget is then?

@7:44 - **iPhone**

Well, you know, what are you investing? I know you've got sponsors, haven't you? So, yeah, you know what your budget is for MRO for a year, for a year.

Yeah. I couldn't tell you to be honest. I mean, we've got a massive support of like sponsors and stuff like that and quite a lot.

It only comes in from my dad's side and some money from his side of sponsorship, but if I were to put a figure on it, I'd have said about 60k, maybe.

@8:13 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

That sounds about right, to be honest, because you can't really turn up for less than 50k, can you, if you want to be and do every round and these sort of things.

But yeah, I know it's not a cheap sport, is it? But at the end of the day, you get what you pay for as well, don't you?

@8:34 - **iPhone**

Exactly, yeah, 100%, yeah.

@8:36 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

So what's the goal for this season?

@8:37 - **iPhone**

It was top three, wasn't it? Yeah.

@8:40 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

And where are you currently?

@8:41 - **iPhone**

I'm fourth at the minute.

@8:43 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Okay, and what's the gap?

@8:45 - **iPhone**

27 points with six races to go.

@8:48 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

You seem to know that off the top of your head. Yeah.

@8:51 - **iPhone**

I've been thinking about it.

@8:52 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

You go to bed thinking about that, yeah? Okay, all right. So it's well in the mix. It's worth doing.

What's the gap to second?

@9:03 - **iPhone**

Is that a big jump? I think that's around 50 points, I think. Okay.

@9:09 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Yeah. Yeah. So 27 points for six rounds to go.

@9:13 - **iPhone**

Yeah.

@9:14 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Okay, good. And what would that do for you? Achieving that goal of top three, what would that actually mean?

@9:30 - **iPhone**

Personally, I don't know how else to say it, for the team and the group around us.

@9:37 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Yeah, for everybody. It's going to be your parents, it's going to be your teammates, or your team mechanics, whatever it might be.

I don't know if you run with a bunch of people or whatever. But yeah, what would it mean?

@9:51 - **iPhone**

What's it all for, basically? You sacrifice quite a lot. You know, you don't go to your mate's 18th because you're racing and all these sort of

What's it all for? Probably just to repay everybody else. To say like, we've been able to do this, it's not just, never mind me just riding the bike, it's also everybody's like the backbone of everything that nobody sees, like the countless amount of times that my dad spent three o'clock stickering bikes up or sponsors coming here and sponsors going there and people going and meeting other people to draw more sponsors in.

It's more like for a collectiveness to like go, there we go, we've done that. Let's go again.

@10:38 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Do you know what mean? No, absolutely. And what's your long term goal?

@10:43 - **iPhone**

So you achieve this top three.

@10:45 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Yeah. Pay everybody back, prove that it's all been worthwhile and that it's, you know, it's worth all the effort.

Yeah. And then what's the next step?

@10:53 - **iPhone**

The next step would be going to British, but I'm not sure whether we're going to do that next year.

Uh. Yeah. The plan was to go next year, but I feel, because we've just jumped on a new gen ZX6, and that's been under development all year, and I've just, I've said, I'm not really ready to go as of yet.

So I need another year under my belt before we get to that level. And there's still lots to come from me, never mind the bike, so.

@11:22 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

And you're looking at Supersport with that bike. Yeah, yeah. Yeah. So yeah, very competitive, very competitive.

@11:29 - **iPhone**

Yeah.

@11:30 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Okay. So you've been struggling for three years since you started with this overthinking.

@11:36 - **iPhone**

Yeah.

@11:37 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

How have you managed so long, you know, with that sort of self doubt that creeps in?

@11:44 - **iPhone**

Um, I'm not too sure, to be honest. I'm sort of, I'm kind of good at reassuring myself and there's been quite a lot of stuff going on in my own personal life that I've just sort of like, got used to the fact of things.

Go wrong. Stuff happens. I'm from North, so everything's just button up and get on your way, do you know what I mean?

@12:09 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Yeah, yeah, yeah. So you're not going to get anybody giving you a hug?

@12:11 - **iPhone**

No, not really.

@12:13 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

There's no hugs. How else are you from?

@12:15 - **iPhone**

I'm from Huddersfield.

@12:17 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Huddersfield, right, yeah. I grew up in Blackburn, so other side of the Penhines there.

@12:21 - **iPhone**

I can hear it in your accent.

@12:24 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Really? I haven't got an accent. Okay, so if nothing changed, let's say we decided that we weren't going to work together, because I'll be honest with you, the idea with this call is to see if you'd be suitable, but also if you're the right type of person for it, if you want to do it, and I need to see if we've got space, all of these sort of things.

But, let's say we didn't work together, it didn't work out, nothing changes, where will you be next season?

@12:57 - **iPhone**

Erm, I'm not entirely sure. a very interactarian. Thank So we in the same position or probably worse.

@13:05 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Yeah, yeah.

@13:07 - **iPhone**

Because maybe, I don't know, time goes on, stuff might get worse, some stuff might get better.

@13:13 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

It's one of them. But no lights at the end of the tunnel type thing?

@13:18 - **iPhone**

Yeah, sort of, yeah. Maybe just going round the roundabout and just sticking at that, do you know what I mean?

@13:25 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Yeah, no, that makes sense. Like you say, at the end of the day, it does come down to momentum.

When you've got momentum working in the right direction, it carries an awful lot of things with it. It carries your motivation, it carries your...

You line up on the grid going, I've worked, I've done more work than he has next to me. Yeah.

I've got more tools in my toolbox, you know, I'm ready for this.

@13:52 - **iPhone**

Yeah.

@13:52 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

So you're actually excited to put all these things into place. Yeah. Rather than, most people turn up to the grid, fingers crossed.

@14:00 - **iPhone**

Cross, this goes all right.

@14:01 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Yeah, yeah, 100%.

@14:03 - **iPhone**

So you actually go, it doesn't mean it always goes our way, but it means that you're more prepared for the stuff that does happen, you know?

Yeah, 100%.

@14:12 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

So, but most riders that I speak to are focused still on, I need better suspension, I need to get more newer tires more often, we're going to do more track time, more track days.

Yeah. But the research has shown that it's not the way, you know, because you're doing exactly the same as everybody else.

Yeah. You just go and do three track days between now and the next round, you'll see all the lads you're racing on that track day.

@14:40 - **iPhone**

Yeah, and you know what's funny about that? There was a round, I think it was Cadwell Park, right? And my dad carried on saying to me, come on, like, we need to go out.

Like, we're rammed at work at the minute, we've got no time to get out, and if, I'm not being funny, but riding around with

Everyone in advanced groups all good and well, yeah, I'm on the bike, and yeah, it's getting my bike fit, but it doesn't help when I come to a weekend, and there was someone that come and seen us, it was a dad of someone that we knew from Fundersport, and he said, we've had the same issue, we've found that track days do not work whatsoever, because you're riding around, you think you're doing all right, and then some knobhead will come and ruin your lap, and it's like, you're getting yourself more frustrated thinking that it's you, thinking, oh, I should have gone past him there, who's he?

He don't race, do you know what I mean? Which then knock-on affects you next time.

@15:44 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Exactly, exactly. And if you ever go to Spain, I've done quite a lot of work with the lads that are racing in the junior GP, and if you ever go to Spain, the British way is you get there at 7.30, you get set up, you're first to sign on, you're first out.

@16:00 - **iPhone**

first out.

@16:00 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

And your last person coming in at 6 p.m. Yeah. Okay. The Spanish arrive at 11 o'clock. Yeah. They do a couple of hours on track working on a specific thing that they want to work on.

Yeah. They pack up, have some lunch, and go home. Yeah. Because they've actually done the job that they came for.

Now, granted, they can get to tracks an awful lot easier than we can. Yeah. You know, they've got more facilities and more access.

But they're not doing circle after circle after circle after circle, doing the same thing, basically. Yeah. They've gone there to work on using the rear brake or to go on, you know, getting the bike turned.

@16:39 - **iPhone**

That's all they're working on. Get it done. Stop. Finish. Go home. Yeah. A hundred percent. Yeah. I mean, I've spent a couple.

I've had, how many times have we been to Spain now?

@16:49 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Three or four times.

@16:50 - **iPhone**

Yeah.

@16:50 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

And it's just like.

@16:52 - **iPhone**

see it. Yeah. It's so plain to see. Yeah. Where the hell have they gone?

@16:57 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Oh, it's gone home. Yeah, exactly. Exactly. No, they're. So basically, I don't know if you've got a pen in your car there, but I was just going to run through your improve assessment that you did, the very first thing that you did, because your lowest priority, so the lowest score was warm-up preparation at 79%.

Your scores were through the roof, to be honest, so you had a really good round at Snetterson, you were strong, but the warm-up preparation is actually quite a big knock-on to everything we've just talked about, because if you can imagine, the reason why you're not feeling comfortable, and the reason why sometimes you just get up to speed, or you just get comfortable when the check-in flag comes out, and you think, oh, if I had another 10 minutes, I'd have been five or six places up the top.

@17:57 - **iPhone**

Yeah.

@17:59 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Yeah. I'm out, and the session's over, and the reason why we've taken time to get there is because we haven't switched on the brain.

@18:09 - **iPhone**

I dare say you'll do some stretching with the body before you go out, okay?

@18:14 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Everybody does, but nobody or very few people are actually warming up the brain as well as the body.

@18:21 - **iPhone**

Yeah.

@18:22 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

So when you first go out, it feels a bit clunky, it feels a bit rusty, you go and try and push, and you're like, oh, no, you know, that's wrong.

You know, missed my breaking mark, I ran on, whatever it might be. So you have to take your time to build up, and it's because we haven't got both sides of the brain activated.

@18:38 - **iPhone**

Yeah.

@18:38 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

So in our warm-up and preparation routine that we have in the training, we warm up the body and the mind.

Right. So that you're in a situation where you're ready to go from the outlet.

@18:51 - **iPhone**

Yeah.

@18:51 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

So you feel more switched on, and you feel more ready from there. Yeah. The second bit with this, on not necessarily.

We're up to speed early enough is the goals that you're setting, goals are massively important for your performance. Sometimes it can stress us out.

Oh, it's my home round. I've told everybody I'll be on the podium, you know, and we feel stressed by it.

And if we're not seeing ourselves getting there, being close enough, we actually get demotivated by that goal.

@19:23 - **iPhone**

We don't like the rule.

@19:24 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

I don't even want to think about it. It's making me feel sick and that goal. Whereas when you set the right goal, it's like wind in your sails.

It's keeping you focused and keeping you moving in the right direction. So both of those, the warm preparation and the goal setting, get you right on point straight away because you're setting the right goal and you're seeing yourself hitting progress.

@19:47 - **iPhone**

Does that make sense? It does, mate.

@19:49 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Yeah. Yeah. So it means that at the end of the day, you're in a situation where if you can fix that, you have some really strong other scores, but if you can fix that warm preparation.

And you'll feel the benefit in every other area as well, you know, as far as that's going. So what else would you like to cover on this call?

@20:11 - **iPhone**

Just seeing, like, the ways that you actually go about stuff.

@20:16 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Okay. Yeah. Yeah. I can definitely share that with you. As I say, I can't – today, I'm not going to offer you anything.

Yeah, yeah, yeah. If you're happy and we're happy and I'm happy, what we'll do is we'll have a day off.

@20:29 - **iPhone**

Yeah.

@20:30 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

You can have a chat to your dad and whoever else you need to. I can go through. making lots of notes.

I've also got some other people to speak to as well who have got calls booked. And then we'll have a call again 24 hours later to see how you feel and whether we think it's a good move.

Does that sound fair?

@20:47 - **iPhone**

Yeah, yeah.

@20:47 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Perfect, Yeah, good, good, good, good. So the first thing, if you remember those five pillars that we talked about, okay.

So the training that we do, so basically what you've been on for three days is virtually exactly the same.

So you join the training, you get a login to the main platform, and you go in and you watch a video per day, so one video that lasts about 10 minutes because we've already been on this call too long already for our attention span, our attention span is shorter than ever, so about 20 minutes we're already thinking, oh, I've got something else to do, and you're thinking about what to do next.

So it's a topic related to your performance, once a day for 10 minutes, and basically those pillars that we talked about, we go through those in the training, so we start off with mindset, and you've got about, I think it works out to be about 12 days, the first module, and the first module covers basically how you're looking at How racing, how you're looking at the challenge.

Yeah. Okay. And when you look at it in the right way, you're in a very powerful – you'll see other people, your competitors, going, I know how he's thinking, because you'll have more insight into – there's basically a growth mindset and a fixed mindset, okay?

And a growth mindset is always looking at how to improve, like you've told me already. A fixed mindset says, it's all down to my talent.

@22:25 - **iPhone**

Yeah, yeah.

@22:26 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

And you hear talent being banded around the paddock all the time. Oh, he's a talented rider. He's talented. Even commentary, when you're watching BSB or something, they're all about how talented they are.

The problem with talent is if you're talented and fixed, you can't bring double the talent next week to try and be fourth.

@22:48 - **iPhone**

Yeah, yeah.

@22:49 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

I know what you're saying, yeah. Okay. But the people with the growth mindset can do double the work to be fourth.

The talented guy goes, there's no point in me trying to do any more, because I've been told all my life, it's down to my God.

I've given talents and I can't change those. So they actually feel powerless. They feel great when they're performing well, but when they're struggling, they feel powerless.

So mindset's a really important one for recognizing the challenge that you're dealing with, because the challenge always changes. We get that top three this year.

Okay. You either stay in it and want to win the championship, which is the next step, or you take a step up.

Okay. And basically I think you're in the right space. To be looking at moving up when you're in that top three, a lot of people, they finished 11th and go up.

Yeah. Yeah. And they're not ready at all because they haven't conquered the championship that they're in, you know? Yeah.

@23:45 - **iPhone**

talked about it last year. Yeah. You know what mean? So, I mean, I've been in and around there, but I know sort of in myself, like I've got it in me to be able to do the full thing.

@24:00 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

you know what I mean? Yeah, exactly. So, yeah, so basically the first one's mindset, second one's warm preparation. Okay, so the second one gives you the full structure.

What you end up with is a race weekend structure that you print out, you have it as a PDF, you print it out, put it on your Vandoi, and you literally just have it as a checklist.

@24:25 - **iPhone**

Right, okay, Okay, I'm out in 30 minutes, I need to do ding, ding, ding, ding, ding, right, I'm ready.

@24:30 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

So you're not having to remember everything, you're having to think, oh, what was in that training that I should be doing now?

You've got it all nicely laid out for you, just tick the box, that's me, I'm ready, and I've set my goal, and now we're going out to achieve it.

So it's simple and clean. We go through goal setting, it's a very, very important Fathom aspect.

@24:51 - **iPhone**

You did say in one of the debriefs that you don't do any visualisation. No, not really. I have done in the past, but I never really took it.

Like, within a stride of thinking, oh, yeah, this is enough. Do you know what I mean? Yeah. Or to, like, see the benefits of doing that.

@25:09 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Yeah. A lot of people, and even pro racers, I've talked to them about visualisation, and when I've asked them what they do, they close their eyes and remember which way their track goes.

@25:18 - **iPhone**

Yeah, yeah.

@25:19 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

That's basically what they do. That isn't visualisation, OK? That's memory. That's me remembering Donington and Red Gate and that kind of thing.

yeah. It's memory. What visualisation is, and we've got a full process to show you it, we tell you why it works, we show you how it works, and we show some examples in other sports as well of it working, for you to basically go, right, OK, what's my objective?

OK, so my objective is to qualify on the front row and get the whole shot, OK? So the visualisation is you achieving your goal, OK?

OK, now, if you can imagine, if you're going racing... ... This Saturday, okay, coming, and this week, you've done 100 race starts in your head.

@26:09 - **iPhone**

Yeah.

@26:10 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

How good's your race start going to be?

@26:12 - **iPhone**

I don't know.

@26:14 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Well, it's going to be a lot better than the guy that's done none.

@26:16 - **iPhone**

Well, yeah, that's true, yeah.

@26:18 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Because you've done the race start from leading, the race start from being blocked, the race start from going to the inside, the race start from going around the outside.

Yeah.

@26:27 - **iPhone**

Basically, you're ready for any eventuality. Yeah.

@26:30 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

The guy who's done none's going, I hope I get a hole shot.

@26:34 - **iPhone**

Yeah, yeah.

@26:35 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

And he isn't prepared for anything. And so what visualization does is it actually gives you the opportunity because nobody can limit the amount.

You don't need a day off work. You don't need a set of tires. You don't need to go and book a track day.

You can run through every single scenario that you're to deal with. So when it happens in reality, your brain goes, I've trained for this.

Yeah, yeah. I've done it.

@26:58 - **iPhone**

Yeah, yeah.

@27:00 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

So it's a a massive. massive. next When you, when you, when you, when you crack the nuts, it's a massive gain compared to the, most people, as I say, I've tried it, think, oh, I can't really get anything out of it, but it's because they're not doing it properly.

So then we get into the flow aspect. What we've done so far in the training, that takes us to about eight modules.

@27:24 - **iPhone**

Okay.

@27:24 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Yeah. And what we've done in the training so far is we've impacted your belief system. Yeah. Because your belief system is your natural rev limiter.

Yeah. If you don't believe you can win that championship, you'll find a way not to win it. Yeah. Yeah.

You'll have a headache and I can't raise, I can't raise today.

@27:41 - **iPhone**

I've got a migraine.

@27:43 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

You know what mean? That's what happens. Your brain goes, this isn't going to happen. Yeah. Because you can't outwit your brain.

No. You know? So, so your belief system is absolutely the rev limiter. So what we've done with all of these modules is we've actually rewired your belief system.

Because... Because... So, So like we said before, you're lining up at the grid going, I have done 100 race starts in my head.

I have got a plan for leading. I have got my warm preparation done. So the belief system is already different because you can't get belief from rah, rah, rah.

Don't worry, mate.

@28:19 - **iPhone**

You get out there, Sam. You'll get it done. Yeah.

@28:21 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Because the little voice inside your head goes, he hasn't got a clue what he's talking about. Yeah, yeah. You know?

So it doesn't work. But what does work is evidence. So are you in the wet?

@28:33 - **iPhone**

Yeah.

@28:34 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Okay. So if it rains and you go, ooh, I'm liking the look of this. Okay. The little voice is silent.

@28:40 - **iPhone**

Yeah.

@28:41 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Because you've got evidence that backs that up. Yeah. Now, it might say, well, Billy Bob's good in the wet as well.

@28:47 - **iPhone**

It might say that.

@28:48 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Yeah. But it won't go, well, you're stupid to look forward to it because you'll be terrible. It's got evidence.

And somebody like Marquez or Top Rack have just got more things they've got evidence in.

@28:58 - **iPhone**

Yeah, yeah.

@28:59 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

So their belief system is. If the tire is used, I'm good. If it's the start of a race, I'm good.

So he's just got more things. He's got evidence. And what we're doing is we're giving that belief system more evidence.

Okay.

@29:14 - **iPhone**

Yeah.

@29:15 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

That's how that works. We then go into how you're going to access flow.

@29:18 - **iPhone**

Okay.

@29:19 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

And then what we've got, remember, we talked about feedback, the pillar for feedback.

@29:25 - **iPhone**

Yeah.

@29:26 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

What we've got is an app that you have on your phone.

@29:29 - **iPhone**

Right.

@29:29 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Okay. Yeah. And at the end of each session, you fill in on the app how you performed, like you do with a bike.

You would go, it's doing a little bit too much of that and not enough of this.

@29:41 - **iPhone**

Yeah, yeah.

@29:41 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

But nobody does that with a rider, do they?

@29:43 - **iPhone**

No.

@29:44 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

They just go, right, okay, you go and have a coffee and we'll get working on it. What we're doing is how were you in that session?

Yeah, yeah. Do you fill out 20 questions about how you were, all related to the training, so you understand why the questions are being asked?

Yeah. And then in. It instantly gives you feedback on what to focus on in the next session that will help you improve.

@30:07 - **iPhone**

Right, okay, yeah.

@30:08 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

It's literally going, if you do more of this, you'll go faster.

@30:11 - **iPhone**

Yeah.

@30:12 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

And it also works without signal.

@30:17 - **iPhone**

All right, okay.

@30:18 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

I don't know about you, but I've never been to a track that's got signal.

@30:22 - **iPhone**

Yeah, we struggle for signal, yeah.

@30:25 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Yeah, they're always terrible, aren't they, trying to get 4G. So it works without signal as well. And then the last one's funding.

Now, it sounds like you've got quite a lot of funding help already, which is great.

@30:37 - **iPhone**

But obviously, if you want to go to BSB, you're going to need more.

@30:41 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

And nobody does it alone for long, you know? No. So we've got a process, a blueprint that we've used with drivers, because I work with drivers as well, drivers and riders that literally have been able to pack in their job in London, move to Spain, join Junior GP Moto2.

ACTION ITEM: Discuss training program w/ dad (£4k, lifetime access, apps, coaching) - WATCH

Bye. And fund their racing. it's through the process that we've developed. So that's included as well. So any questions on any of that?

@31:11 - **iPhone**

No. That all seems pretty clear to me.

@31:15 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Good, good, good. All right.

@31:16 - **iPhone**

Excellent. I see what's charging my cones.

@31:20 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Oh, we're all right. Yeah, you'll be dropping off from me now.

@31:22 - **iPhone**

You'll all go dead. So shall I tell you how much that is? Yeah, you can do, yeah.

@31:29 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Okay. So, I mean, obviously, I don't know if you spoke to your dad when you were doing the training.

ACTION ITEM: Decide if dad should join 6pm call tmrw - WATCH

@31:35 - **iPhone**

No, I haven't yet. I've not said nothing to no one yet.

@31:38 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Okay. All right. Fair enough. Well, if we have the second call, which we will have because we'll have to see where we both are.

And if you wanted your dad to join that call, that would be great.

@31:50 - **iPhone**

Yeah, 100%.

@31:50 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Yeah. So before COVID, I used to work one-on-one with riders. Yeah. I used to go to the circuits and work with them.

Yeah. Yeah. Yeah. Yeah. Yeah. of Obviously, with COVID and everyone having to stay at home, I moved everything online, so that was the difference.

But that level of training that we just talked about that had all of the elements of coaching, the correct information through the training, technology.

We've also got some apps and some other recommendations that are going to help you as well. And then the feedback and the structure, and this is for a season long, it was £9,000 per season back then, but the good thing is because we've got it into an online platform, you don't have to pay £9,000, which is the good news.

So lifetime access, you buy it and you've got access to go back and do the training again next winter.

Yeah, you can look at a lot of people. Do that. I've got people that have been with me for six or seven years now.

And every winter, right, I'm starting again.

@33:07 - **iPhone**

Because it's a bit like if you watch a movie for the second time, you see something you never saw the first time.

Yeah, 100%.

@33:14 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Yeah. And also, you go and get that third in the championship, you achieve your goals, you've already applied some things.

When you go back and do it again, you're actually seeing it from a different angle. Because when you first start, it's all like looking out like it was this last three days.

@33:32 - **iPhone**

Oh, that's interesting. Oh, I didn't know about that. I think that's a different way to look at it.

@33:37 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

When you've actually been applying it, and you go back and do the training, you're actually seeing it from actually a Donington.

If I had done more than that, I could have got up to speed in qualifying faster. Yeah. You can connect the dots a lot sooner when you're going through it a second time.

So you get lifetime access, all of the coaching, all of the apps and everything.

@33:55 - **iPhone**

And that's 4,000 pounds.

@33:57 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Right. Okay. Yeah. Okay. So that's, that's yours to keep. And how does that sound?

@34:04 - **iPhone**

Sounds all right to me, to be fair.

@34:07 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Okay. So on a scale of one to 10, how close do you think that program would come to fixing your overthinking, your slow to get comfortable and that, you know, performance of getting you to top three in the championship?

@34:23 - **iPhone**

From what I've seen and what I've done at the minute, it's been pretty dead on, to be fair. Like, the stuff that's, like, made me recognise patterns in what I'm feeling or what I'm thinking beforehand and even, like, the preparation scale, like, that's a big, like, thing that jumped out to me.

So, yeah, seems positive, to be fair.

@34:48 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

So what would you give it as a number?

@34:52 - **iPhone**

About an eight.

@34:53 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

An eight? What would it need to be to be a nine, then?

@35:00 - **iPhone**

I'm not too sure.

@35:00 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

I'm Okay, okay. So let me just recap to make sure- probably think it's just because I'm being a little bit sceptical, do you know what I mean?

Yeah, yeah.

@35:10 - **iPhone**

Okay. It's more of the scepticalness of it all. I don't trust it or anything like that. It's just like, I don't know, something, I'm not sure- No, that's fair.

@35:23 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

It's fair comment. It's fair comment. I mean, we haven't known each other, you know, from Adam, have we?

@35:28 - **iPhone**

No, exactly.

@35:29 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Yeah, yeah. You know, I fully understand. I can give you the website details after this so you can have a look at the website and you can see some more people that have finished it and been on the course, that type of thing.

Because obviously, you know, maybe your dad's going to be very sceptical as well, you know? He'll be like, what on earth can you get from an online course?

You know, you need to be on the bike and these sort of things. So it's important for you to be feeling it's worthwhile if it's something you want to do.

If it's something you don't want to do, no problems. I don't want I'm my time and you don't want to waste yours, but if it is something you want to do, then we've got to make sure that you've got enough information that you know it works.

So just to recap, I've got it down that you're struggling with overthinking and taking too long to get comfortable to be able to push at your best, and you haven't been able to try anything so far to try and fix it.

And what you need is a proven process that's going to give you a way to perform consistently at your best to be able to achieve that top three in your championship with 27 points to go and six rounds left.

I made a note of that.

@36:37 - **iPhone**

Six races. Two rounds, six races.

@36:40 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Oh, six races, yeah. And does that still sound about right?

@36:45 - **iPhone**

Yeah.

@36:46 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Okay, perfect. Well, I mean, I understand where you're at, which is great. thank you for your honesty. And does this sound like something you would want to do?

@36:55 - **iPhone**

It would.

@36:56 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Yeah. hundred percent. Yeah. Okay. And, and. It wouldn't be you that would decide on the payments, I suppose, would it?

No. We'd have to talk to your dad about that. Yeah, yeah, yeah. Because if there is a company involved, what I've done for other people is I've actually been able to invoice it as management training so they can actually put it through the business.

As you know, there's hardly anything you can put through a business anymore for racing, but management training you can, and we can look at splitting it up into a couple of payments if that makes it easier for people.

So, if we both decided it was a good fit, you were happy to start, I was happy to get you on board.

Is there anything that would stop you getting started straight away?

@37:45 - **iPhone**

No. I'd want to get started straight away.

@37:49 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Okay. Yeah, perfect. It's just for me to know, because I'm going to jump on other calls tomorrow, and I want to make, if somebody's going, you know, I can't start for six weeks, then I know the spaces that I've got, you know, whatever else.

Good. All right. Excellent. Well, I need to complete some of the calls as well. You need to speak to your people.

@38:08 - **iPhone**

But should we look at trying to book a second call? Yeah, we can do.

@38:11 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Yeah, 100%. Yeah. Okay. I'll book it for us now, actually, on here. So when is good for you? Could we do tomorrow?

Because Friday I'm going to be pretty busy.

@38:23 - **iPhone**

I'm at football tomorrow at eight o'clock.

@38:30 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Okay.

@38:31 - **iPhone**

And just thinking.

@38:37 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

We could do what is Friday then for you? Are you talking about the evening?

@38:43 - **iPhone**

Yeah, tomorrow evening at eight o'clock. I'm just thinking if straight after work, because I mean, we're a little bit dead at work at minute.

So if we can get like maybe 40 minutes just after work.

@39:00 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Yeah.

@39:00 - **iPhone**

more. Bye.

@39:06 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

What sort of time do you finish?

@39:07 - **iPhone**

About 4 or 5 o'clock.

@39:11 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Let me just have a quick look.

@39:12 - **iPhone**

We can nip in like, I don't know, maybe 40-50 minutes in, or however long, about 6.

@39:21 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

6 o'clock?

@39:22 - **iPhone**

Yeah.

@39:24 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Let me just have a quick look. It looks like I've got somebody at 6. But I can look at maybe moving something.

Hold on. I just need to see who it is. Because at the end of each module, we have a call, you see.

And so I've got, and with it being BSB last weekend, I've got quite a lot of people. I could probably move, it's Callum Beach who races in Superteens.

ACTION ITEM: Attend follow-up call tmrw 6pm - WATCH

ACTION ITEM: Attend follow-up call tmrw 6pm - WATCH

I can move him, I'm sure if I give him a call, just to move him. So should we try and...

... ... Book it for six o'clock.

@40:03 - **iPhone**

Yeah, we can do, yeah.

@40:05 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Okay, let me just move that. And then hopefully he'll be okay with that. I'm sure he will. And then this just needs to update.

@40:19 - **iPhone**

If not, just let me know, and I don't know, do you do out on, let's say, Friday morning or whatever?

Because while we're at work, we can just nip out and maybe another session in car or whatever, just for a quick chat.

@40:34 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Yeah, whichever works for you, really. I mean, I can do six o'clock now, if that's all right with you.

@40:41 - **iPhone**

Yeah, I can do, yeah.

@40:42 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Because I'm also thinking if your dad wants to be on it as well.

@40:44 - **iPhone**

Yeah, yeah, true.

@40:45 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Yeah, I'm at work with him. I work for him. Ah, right, okay, right.

@40:49 - **iPhone**

I mean, we're together all day, do you know what I mean?

@40:53 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

You're welded, welded at the hip.

@40:55 - **iPhone**

Yeah. Well, try not to be.

@40:58 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Okay, no, I'm going to put it in for six. All right, okay. Because you know what it sometimes is at work, you get a bit of something going on, you know, at least if you're finished for the day, it's better, and then you're at Hotmail, aren't you?

@41:12 - **iPhone**

Yeah.

@41:14 - **Craig Muirhead (nsnconstructionnw@gmail.com)**

Okay, let me... I've just done that. So you'll get the same type booking that you got for this call, okay?

Yeah, okay. And then we'll just jump on it again, we can see how he feels, how you feel, and then we can see if there's an opportunity.

@41:35 - **iPhone**

Perfect. Sounds good. All right, Sam, thanks for putting time aside, and we'll speak soon. See you later, Matt. Thank you.

Take it easy. Thank you, mate.
